becoming lean and fit is not a matter of training for a few weeks like rocky to become a world champion that only happens in hollywood movies that portray professional athletes exercising for hours every day until they are exhausted real athletes never do that they train only to the point that they can recover for the next day s training their progress comes in small increments not heroic triumphs unfortunately

movies have persuaded people that they can become lean and fit virtually overnight even the weight loss and fitness industry bought into this distortion and began pushing people to become like rocky when that approach failed because people were injuring themselves or burning out or jumping from one program to another trainers began to entertain their clients instead of finding solutions to their problems if you want to become truly lean and fit you must work at it like an athlete following a structured routine and that is easier and more pleasant than you may expect the principles that work for athletes also work for ordinary people of all ages athletes of course have coaches the happy body program on the other hand will teach you everything you need to know to be your own coach this innovative program establishes for the first time exact scientific and testable methods and goals to engineer your own weight loss and fitness within precise time periods that empowers you to self correct your progress at every step the happy body is a total health program not just an exercise or diet plan it will teach you to safely lose 10 to 25 pounds every week and keep them off without getting stuck at plateaus you will have full control over the process right down to the ounce in addition to teaching you how to lose weight the program will also help you to restore the flexibility and posture you had as a young child and to be leaner stronger and faster than you have ever been in essence the happy body program will not only make you as youthful as you were at twenty but twenty as you would have been if you had followed the program at that age
