Iberian Trade Unionism 2018-01-16 one of the most neglected areas of the european integration process is the role that trade union confederations may play after the full establishment of the economic and monetary union the gradual establishment of the four freedoms enshrined in the single european act would require a transformation of the present strategies of trade union confederations toward more flexibility and towards the ability to take part in different levels of the european integration process iberian trade unionism highlights the emerging patterns of cooperation between national subnational and supranational actors and the impact on these different levels unlike most literature on the study of democratization and europeanization iberian trade unionism aims to break the dominant focus on political parties and political institutions by raising awareness of the importance of interest groups such as trade union confederations in contributing to a strengthening of democratic governance the central thesis is that both portuguese and spanish trade unions are becoming increasingly part of a transnational european strategy which shapes the internal organizations toward professionalism and democratization part 1 contextualizing iberian trade union strategies deals with the operations of both portuguese and spanish trade union confederations part 2 the national systems of interest intermediation and trade union confederation strategies analyzes the transformation of the national systems of intermediation in the 1990s which were affected by a decline in steering power of spanish and portuguese political systems vis a vis global and european political and economic processes part 3 subnational and transnational policies of iberian trade union confederations deals with policies and strategies the last chapter treats the integration of iberian trade union confederations in the institutions of the european union as well as the itucs and is based on original research done in madrid lisbon and brussels this timely look at interest groups and lobbying in the european union will appeal to scholars studying european integration and the role of interest groups in it and to students of spain portugal or southern europe

Spain After the Indignados/15M Movement 2019-06-24 spain after the indignados 15m movement explores how the aftershocks of the 2007 great recession restructured spain s political sphere and political imaginary it brings together a representative sample of spain s leading progressive voices including two of the five founding members of the podemos party the essays herein explore the areas of economics politics ecology social change media and cultural politics in order to present a broad critical account of contemporary spain with a special emphasis on emerging forms of sociopolitical contestation self organizing democratic participation and radical politics the edited volume argues that spanish cultural studies which originally gravitated toward celebratory accounts of capitalist modernization the cultural movida and the advent of a postmodern spain must continue to build a new cultural politics that not only challenges the accepted narrative of the spanish transition to democracy but that is committed to confronting the civilizatory challenges currently faced

Report of the Director-general 1992 this collection originally published in 2007 offers a diachronic analytical study of new and alternative social movements in spain from the democratic transition to the first decade of the 21st century paying attention to anti war mobilizations and the use of new technologies as a mobilizing resource new and alternative social movements are studied through the prism of identified linkages among the left movement identities and global processes in the spanish context weight is given to certain important historical aspects like spain s relatively recent authoritarian past and certain value added factors such as the weak associationalism and materialism exhibited by the spanish public these are complemented by exploring insights offered by key theoretical approaches on social movements political opportunities structures resource mobilization the volume covers established social movement cases gender peace environmental movements as well as those with a more explicit connection to the current context of global contestation squatters and anti globalization movements this book was published as a special issue of south european society and politics

New and Alternative Social Movements in Spain 2015-12-22 this book is the first major study of one of spain s most celebrated younger novelists belén gopegui whose work stands apart from other writers of her generation for its uncompromising focus on the social function of literature gopegui s social commitments find expression in her concern for solidarity and collective projects these become more radical over time in response to a disenchantment with the evolution of the left in spain and to the global impact of the capitalist economic system giving rise to increasingly interventionist narrative strategies the core theme of solidarity is explored in relation to the collective experience of spain s largely consensual democratic transition and to the apparent erosion of collective goals in post transition society gopegui s discourse of solidarity is examined through engagement with theorists of advanced modernity including ulrich beck s risksociety model and various contemporary reflections on the concept of solidarity centred on gopegui s first four novels the study situates analysis of these within the perspective of her later works and illuminates her artistic and intellectual trajectory by drawing on an extensive array of her non fiction writings and personal interviews one of which is published here for the first time hayley rabanal is lecturer in hispanic studies at the university of sheffield

Report 1991 this interdisciplinary book draws on leading scholarship on one of the most influential and consequential social movements of the past decades spain s 15 m movement the volume explores the legacy impact and outcomes of the movement and the lessons it offers for understanding mobilization in times of crisis the book opens with a theoretical reconsideration of the positive ways social movements can impact democracy moving the field forward significantly it also offers rich case studies to explore a range of areas of interest to social movement scholars chapters explore the biographical consequences of participation in social movements how memories of the movement inspired new mobilizations the reciprocal influence between the 15 m movement and feminist economics how urban democracy was transformed by municipalism arising from the movement how the movement generated a caring democracy in the face of the covid pandemic and how it gave rise to a new radical democratic media ecosystem the book explores the movement s political economy as well as reflects on one of its unintended consequences the rise of the penalization of counter hegemonic protest in contemporary spain although focused on a single emblematic movement it offers significant insights and lessons for scholarship on contemporary politics and movements re imagining democracy provides a valuable resource for scholars and

students interested in the challenges faced by contemporary democracies the dynamics of social movements in times of crisis and the profound impact of social movements on contemporary democracy the chapters in this book were originally published as a peer reviewed special issue of social movement studies

Belén Gopegui 2011 fables of development capitalism and social imaginaries in spain 1950-1967 focuses on a basic paradox why is it that the so called spanish economic miracle a purportedly secular rational and technocratic process was fictionally portrayed through providential narratives in which supernatural and extraordinary elements were often involved in order to answer this question this book examines cultural fictions and social life at the time when spain turned from autarchy to the project of industrial and tourist development beyond the narratives about progress modernity and consumer satisfaction on a global and national level the cultural archives of the period offer intellectual findings about the expectations of a social majority who lived in the precariousness and who did not have sufficient income to acquire the consumer goods that were advertised through the scrutiny of interdisciplinary archives literary texts cinema newsreels comics and journalistic sources among other cultural artifacts each chapter offers an analysis of the social imaginaries about the circulation and distribution of capital and resources in the period from 1950 when general franco's government began to integrate into international markets and institutions following its agreements with the united states to 1967 when the implementation of the first development plan 1964-1967 was completed

Rapport du directeur 1991 this selected issues paper analyzes the sources of the persistence of geographical unemployment imbalances and low speed of adjustment to regional labor demand shocks in spain the paper argues that under present labor market arrangements these imbalances are unlikely to be corrected in the near future in particular the current wage bargaining system appears to be excessively centralized and to result in nationally set wages that are too high to reduce unemployment in high unemployment areas the paper also analyzes the may 1997 labor market reform

Re-imagining Democracy 2023-11-07 non performing loans non performing people tells the previously untold stories of those living with mortgage debt in times of precarity and explores how individualized indebtedness can unite resistance in the struggle toward housing justice the book builds on several years of melissa garcía lamarca's engagement with activist research in barcelona's housing movement in particular with its most prominent collective the platform for mortgage affected people what garcía lamarca learned from fellow activists and the movement in barcelona pushed her to rethink how lived experiences of indebtedness connect to larger political economic processes related to housing and debt the book is also inspired by feminist scholars who integrate the lens of everyday life into explorations of contemporary political economy and by anthropologists who connect macroprocesses to lived experience distinctive in how it integrates a racialized gendered and decolonial perspective garcía lamarca's research of mortgaged lives in precarious times explores two principal phenomena first how financial speculation is experienced in the day to day and differentially embedded in the dynamics of urban capital accumulation and second how collective action can unleash the liberating possibility of indebtedness

Activities of the ILO 1992 the covid 19 pandemic will exacerbate spain's already large inclusion gap responding in the recovery with policies that support social objectives should be a key priority and calls for several structural changes this paper summarizes some of the main drivers behind the social dispersion which pre dates the covid 19 crisis and policy options the focus is on how to address the fragmented labor market tackle pressures on rental housing affordability and lower the gender pay gap 1 2

Fables of Development: Capitalism and Social Imaginaries in Spain (1950-1967) 2023-05-15 historically spain has often been represented as a financial failure a state limited by its absolutist monarchy and doomed to fiscal and financial failure without hope of lasting growth the collapse of the spanish state at the beginning of the nineteenth century would seem to bear out this view of the limitations of spain's absolutist state and this historical school of thought presents the eighteenth century as the last episode in a long history of decline that is directly linked to the failure of the sixteenth century spanish imperial absolutist monarchy this study provides a different perspective suggesting that in fact during the eighteenth century spain's fiscal military state was reconstructed and grew it shows how the development of the spanish fiscal military state was based on different growth factors to those of the sixteenth and seventeenth centuries and that with this change most of the state's structure and its relationship with élites and taxpayers altered irrevocably in the ceaseless search for solutions the spanish state applied a wide range of financial and fiscal policies to expand its empire the research in this book is inspired by current historical discussions and provides a new perspective on the historical debate that often compares english success with continental failure

Spain 1998-06-22 this yearbook brings together information concerning spanish legal practice and a bibliography over the period of one year and makes it available to an international readership it deals with both private and public international law taken in a broad sense to include summary treatment of international organizations of which spain is a member

Non-Performing Loans, Non-Performing People 2022-11-15 spain's economy has continued to grow strongly reflecting its improved fundamentals however especially the young generation still faces daunting economic challenges in the meantime several downside risks are clouding the medium term outlook externally they comprise sudden changes in investors global risk appetite escalating global protectionism and weakening conditions in emerging economies domestically they include pressure to reverse reforms continued procyclical fiscal policy and prolonged uncertainty related to catalonia these could hurt the economy particularly in an environment of high public debt and structural unemployment as well as sluggish productivity growth which is set to slow spain's income convergence

Spain 2020-11-13 this is the first book that highlights how socialization is experienced as being a complex concept in everyday life in various countries of the world the book represents the first attempt to provide an original and multidimensional definition of socialization that takes into account the contribution of different disciplines such as philosophy psychology

sociology education and even architecture to underline its importance as a key aspect of human experience therefore it represents an extraordinary opportunity to outline new horizons in the field

Constructing a Fiscal Military State in Eighteenth Century Spain 2015-05-25 this open access volume identifies the common and specific aspects of social mechanisms that generate inequalities through comparative analyses of different dimensions in which inequalities are expressed it includes studies on social inequalities in 5 european and 5 latin american countries along 11 thematic axes inequalities in the labour market and labour trajectories asymmetries in the relationship between training and employment inequalities in work and family life educational inequalities geographical and social inequalities ethnicity and language social inequalities migration and space uncertainty strategies resources and capabilities inequality of opportunity intergenerational social mobility social policies gender inequalities and research methodology this volume is the result of a large collaborative project on social inequality funded by the european commission the international network for comparative analysis of social inequalities taking into account diverse perspectives and approximations the collaborators have created a general analytical framework as a model of analysis of social inequalities the various contributions in this volume help readers gain a global outlook and help reflect on social inequalities in a comparative perspective this volume addresses social science graduate and postgraduate students researchers social policy makers as well as a broader academic audience interested in social inequality

Social Debt 1993 this casebook deals with the horizontal effects of eu law which is to say its effects on relationships between individuals to a large extent these effects have been created by the court of justice of the european union cjeu on the basis of the european treaties the main focus of the casebook is on the developments relating to primary eu law and their influence on national private law it studies instances where eu primary law has already directly or indirectly influenced the case law in the member states or where it is expected to do so soon compared to the well known impact of eu directives on private law these developments concerning primary eu law are hardly noted by private lawyers and perhaps not sufficiently explained by scholars of eu law therefore the book makes an important contribution to scholarship and education this book highlights developments in the areas of competition law fundamental freedoms non discrimination general principles of eu law ex officio application of provisions of eu law and implementation of directives including harmonious interpretation and francovich liability in its analysis of the ways in which eu law interacts with private law the book will be an invaluable resource to students practitioners and academics of eu private law
