The Nine Steps

after looking into the world of the afterlife for a long time anne givaudan and daniel meurois were able to focus their attention on what might be called the world of pre birth using their familiar method of projecting consciousness for the nine months which make up a pregnancy they followed the path of rebecca a soul preparing to take on a body of flesh day after day week after week they faithfully recorded how the being to be incarnated went through many metamorphoses like a documentary article their testimony retraces the various psychic and physical changes which everyone undergoes in the womb and the worlds which lead to it this is a new way of looking at foetal life and the process of reincarnation written in a simple direct style the originality and amount of information the book offers make it a work that does not just speak to those who are to give birth to a child or have already done so but also all those for whom life is an everlasting source of wonder

de multiples sources s'en font régulièrement l'écho un maître de sagesse s'est réincarné quelque part au proche orient vers le début des années soixante certaines vont jusqu'à dire qu'il s'agit de jésus en personne répondant à un appel anne givaudan et daniel meurois entreprennent alors un voyage en syrie là ils sont immédiatement contactés par un être de lumière en qui ils reconnaissent à la fois une force et une douceur significatives qui ne leur laissent plus de doute leur récit débute donc en plein cœur de damas et s'efface très vite pour laisser totalement place à l'enseignement qui leur est offert témoignage d'une expérience tonnante ce texte se présente dès lors comme un guide à l'usage de chacun pour secouer les résistances de l'ego et lancer plus solidement les bases d'une nouvelle conscience d'une actualité brûlante d'une écriture simple et sans complaisance par l'esprit du soleil s'adresse à tous ceux qui épris de paix et de vérité ne veulent plus passer leur temps mais agir

avec ce récit qui nous fait pénétrer dans la fascinante culture amérindienne du xviiie siècle daniel meurois nous offre un témoignage qui parlera au cœur de ceux qui aspirent à une spiritualité spontanée ouverte et sans âge usant une fois encore de sa capacité naturelle à investiguer la mémoire de l'univers l'akasha il nous convie à le suivre tout au long du parcours exceptionnel d'un homme médecine autrement dit d'un chamane de la région des grands lacs canadiens en un temps où les missionnaires chrétiens faisaient tout pour y imposer leur foi parce qu'il se situe au point de rencontre entre deux cultures réputées inconciliables parce qu'il relate des expériences transcendantales au sein d'une nature encore vierge ainsi que des plongées fusionnelles dans la conscience animale cet ouvrage est unique en son genre véritable hymne à la terre mère mais aussi au respect de toutes les cultures le chamane et le christ nous indique très clairement le chemin salvateur d'un retour aux sources

in 1945 when the atomic bombs were dropped in wwii our protectors and watchers in outer space saw that earth was on a collision course with disaster the prime directive of non interference prevented them from taking any action but then they came up with a brilliant plan to save earth and assist her in her ascension they couldn't

interfere from the outside but maybe they could influence from the inside so the call went out for volunteers to come and help earth is in trouble who wants to volunteer the native souls living on earth were too caught up on the wheel of karma the only hope was to ask for pure souls to come who had never been trapped on the karmic cycle dolores in her hypnosis work has discovered three waves of these volunteers some have come direct from the source and have never lived in any type of physical body before others have lived as space beings on other planets or other dimensions because all memory is erased upon entry to the earth dimension they do not remember their assignment thus these beautiful souls have a difficult time adjusting to our chaotic world these souls have a vital role to play as they help all of the rest of us ascend to the new earth characteristics of the three waves of volunteers the difficulties being experienced by first timers how the shift is affecting the physical body the roles of ets and light beings in the shift keepers of the grid the separation of the old and new earth what is the new earth what is the significance of 2012

you've probably seen it before a human brain dramatically lit from the side the camera circling it like a helicopter shot of stonehenge and a modulated baritone voice exalting the brain's elegant design in reverent tones to which this book says pure nonsense in a work at once deeply learned and wonderfully accessible the neuroscientist david linden counters the widespread assumption that the brain is a paragon of design and in its place gives us a compelling explanation of how the brain's serendipitous evolution has resulted in nothing short of our humanity a guide to the strange and often illogical world of neural function the accidental mind shows how the brain is not an optimized general purpose problem solving machine but rather a weird agglomeration of ad hoc solutions that have been piled on through millions of years of evolutionary history moreover linden tells us how the constraints of evolved brain design have ultimately led to almost every transcendent human foible our long childhoods our extensive memory capacity our search for love and long term relationships our need to

create compelling narrative and ultimately the universal cultural impulse to create both religious and scientific explanations with forays into evolutionary biology this analysis of mental function answers some of our most common questions about how we've come to be who we are
