many designs that appear in today s society will circulate and encounter audiences of many different cultures and languages with communication comes responsibility are designers aware of the meaning and impact of their work an image or symbol that is acceptable in one culture can be offensive or even harmful in the next a typeface or colour in a design might appear to be neutral but its meaning is always culturally dependent if designers learn to be aware of global cultural contexts we can avoid stereotyping and help improve mutual understanding between people politics of design is a collection of visual examples from around the world using ideas from anthropology

and sociology it creates surprising and educational insight in contemporary visual communication the examples relate to the daily practice of both online and offline visual communication typography images colour symbols and information politics of design shows the importance of visual literacy when communicating beyond borders and cultures it explores the cultural meaning behind the symbols maps photography typography and colours that are used every day it is a practical guide for design and communication professionals and students to create more effective and responsible visual communication
